### Career Objective

Focused, self-motivated & goal-oriented computer programming and analysis student seeking a co-op or internship position which requires programming & testing video games, web applications, or other applications.

### Technical Skills

- Experience writing & debugging stable, high quality C# code in the context of video games (3+ years of experience), however, also knowledgeable regarding building web & other various types of applications
  - Additional experience includes developing, testing and debugging computer software and applications with computer languages and databases including ASP.NET, HTML, CSS, Java, JavaScript, SQL, MS-Access
  - Familiar with the Unity Game Engine development process & capable of building 2d & 3d games from the ground up
- 

### Projects

Currently working on two video game projects (one independently, one in a team) aside from school and work

- Individually working on a First-Person, story-driven, puzzle platformer called Maybe they Knew <https://drive.google.com/drive/folders/1Gij8NKYs-CaFwxB9FXhJLZyujtxB0lC7?usp=sharing>
  - Cooperatively working on an unnamed story-driven, physics-based, comedic game (approx. 2 months) <https://drive.google.com/drive/folders/1ZJRTfPzG49Y6cFjhBHc-9ZIBG0cltdQO?usp=sharing>
  - Many bite-sized, experimental projects in Unity to design specific mechanics or scenarios
- 

### Education

#### Computer Programming and Analysis

Sept 2021 - Present

Conestoga College, Kitchener, ON

- Reinforced understanding of C# concepts & grasped many aspects of web development from HTML to JavaScript
- Maintaining a 3.9 GPA

#### Attended Kitchener-Waterloo Collegiate & Vocational School

2017 - 2021

Kitchener, Ontario

- Honour Roll (All semesters)
-

---
